Today I woke up to my home being overrun by a swarm of black wasps. They covered my back door, porch, and were buzzing all around my home. Some were able to make it into my home and put my family and companion animal at risk. I called a ton of pest control places desperately searching for help. Of the seven different pest control companies I called Optimex was the only one who showed true concern for my family and I and were the only ones who fit me in to their schedule last minute in order to ensure our safety. Your actions mean more than any words I could ever write.

I spoke with Mark who was professional and helpful. He was upbeat and showed me true concern. When the wasps started entering my home I called back to let them know of my emergency and spoke with Ryan. Ryan was extremely knowledgeable and friendly. He stayed on the phone with me while I captured pictures so he could identify the type of pest and the treatment needed.

After identifying them Ryan informed me of what it was the wasps were doing... Attempting to make my home their new nest. He explained to me the wasps habits, the dangers to look out for, and what to expect next. Ryan forwarded my information immediately to Brad (our technician as of today!).

Brad fit me into his schedule and came by the same day to treat my home; providing safety to my loved ones. He too was respectful, friendly, and EXTREMELY thorough. I have never been more confident of any pest control company. Brad, Ryan, and Mark are all all-stars.

To put it simply, if you're with any other pest control company you are missing out. They are the best hands down! Thank you all so much for all you've done for my family. You've made a loyal customer and I will make sure to let everyone know of your incredible service, great prices, and compassion towards those in need. A++!

Michael did a thorough job. Ants were in one area of my front yard. He spread granules in that area as well as the rest of the yard. He also inspected the back yard as well. He was polite and knowledgeable.

Having used another competitor, these guys are much better. Very thorough, got every nook and cranny with bug killer. Even came back a week later to put down bug deterrent outside, other company did not do that. Very happy. Absolutely no bugs left. Great job.

Michael was right on time for my first appointment. He explained what he would be doing and went over future visits. I am looking forward to working with Optimex to keep my home bug and rodent free.

Brad and his employees are very professional and at the same time very friendly. The service is amazing. They go above and beyond to service their customers. We never got this kind of service during the 25 years with Terminex in Oregon. Brad takes time to educate his employees and they do know what they're doing. The treatments actually work. They are very reasonable too. You can't beat the value, service and dependability of this company. Thank you so much Brad!

I called many pest control companies before finding these guys. There was a obvious difference between them and their competitors just from the first phone call. Ryan spent plenty of time talking about my specific needs and explaining what i could expect. Brad showed up on time for my initial appointment. He was extremely helpful and did a very thorough inspection. I am very happy i chose to them to help me take care of my home!

Brad and his son came the same day I called and did the most thorough pest control job I've ever had done on a house. They sprayed and cleaned around the whole perimeter of our 4000 square-foot house. This included cleaning the eaves and power washing our decks and patio. Both my husband and I were impressed with their work and wonder why we didn't call sooner.

Truly amazing, it has been heaven working with this company! I switched from another company that was price gouging (as there are a lot here in Arizona that do that) and my prior company didn't even spray or treat near as much or as well as Optimex. I have been through SO many pest control companies; this one by FAR is the best! They are honest, trustworthy, extremely knowledgeable and at a great price for the service. I worked with Ryan and he was amazing! Very strong work ethic, knowledgeable and fair. If you have read this far you can obviously tell I highly recommend Optimex.

Brad from Optimex was great to work with...he understood what we needed and provided our first service for pests as well as weed control in our front yard (rock). He came back and did a "touch up" service of the rock area for the weeds that managed to grow after the first service was completed. We are on a rotating schedule now with Optimex and I would highly recommend this company for your pest and weed control needs. We were a customer of Orkin for over 15 years before coming to this area last year and switching to Optimex with Brad.

Brad and Ryan came out today and did an amazing job! Got rid of my weeds and killed tons of spiders and also got rid of a brown recluse in my bedroom. Glad these two gentlemen went above and beyond for me. Best part they are local! True professionals who were kind and helped identify the bugs they were killing and preventing. Thank you Optimex!

Mark, Ryan, and Brad were the most helpful people we could ever ask for. We had an emergency situation with wasps that were trying to invade our home and they were fast, compassionate and worth every penny. We will be return customers.

If anyone needs pest control and want to support out local businesses owners..... Optimex Pest Control, in Prescott Valley is awesome and you can't beat his prices!!! Brad (owner and local to Prescott Valley)was doing service at a neighbors house where he discovered several black widows and advised me of the creepy crawlers that are prominent in our area. I have used another pest control company for several years but decided to give my business to a local business owner. What a fantastic switch! Not only was Brad very transparent, but very professional and was less then his competitors!!!! He went way beyond what I was expecting!!!
